- Excellent interpersonal skills.

EMPLOYMENT HISTORY

Andrew Stewart Ltd – Christchurch and Auckland www.andrewstewart.co.nz

Environmental Consultant- Associate

Auckland December 2005 – March 2008; Christchurch March 2008- August 2009

Summary

- Main planner to the Waitakere City Council assisting with the overall scheme and responsible for securing the necessary resource consents for the Project Twin Streams walk and cycleways, which traverse approximately 16km through several different District Plan zonings across both Waitakere City Council reserve land and private property. This project has a capital value of \$7.2M.
- Through business development work I was integral to securing a contract with an emerging telecommunications company for the nationwide rollout of cell sites. As well as preparing resource consent applications myself, I managed junior staff to deliver applications to a tight schedule. I was responsible for setting up templates for applications in various districts and liaised with council staff throughout the country.
- Project management, including the management and co-ordinating of sub-consultants, such as acoustic consultants, roading and traffic specialists, arborists and engineers (infrastructure).
- Commercial and residential developments including the construction of a three storey retail and residential building, the construction of the Michael Park School library and IT suite, the redevelopment of the Michael Park kindergarten and the construction of the New Zealand Bloodstock Ltd Yearling Barn and Administration Building at the Karaka Bloodstock Centre.
- Several public sector projects including the construction of public toilets, parks infrastructure, walkways and sluice gates.
- As part of role was responsible for generating company income from business development. Obtained repeat work from clients.

Mitchell Partnerships

Environmental Consultant

February 03- March 04 Dunedin; March 2004 – December 2005 Auckland

Summary

- Assessments of environmental effects for land use consents, water permits and discharge permits for activities that include on-site wastewater treatment/processing and disposal, air discharges of fuel

combustion by-products associated with the proposed development and the construction and operation of wetlands.

- Private plan change to change the operative Wanganui District Plan to enable a proposed manufacturing development on a property zoned for rural use under the Wanganui District Plan.
- Involvement in consultation, pre-hearing meetings and the preparation of hearing evidence.
- Preparation of Council hearing evidence for New Zealand's largest offshore marine farm.
- Involvement in various projects for Genesis Energy, including Awhitu Wind Farm, Huntly Resource Consent Mitigation Project; and for Solid Energy, including Stockton Plateau.
- Preparation of various resource consent applications for Central Otago developments, including landuse activities and water take applications
- Preparation of assessment of environmental effects and review of technical assessments for renewal of resource consents for Ravensdown Fertiliser Co-op Ltd, Ravensbourne, Dunedin.
- Preparation of an outline plan for the Invercargill Civic Theatre, for Signal Management Group.
- Preparation of an assessment of environmental effects for the extension of Leith House Hospital, Dunedin
- Applications for resource consents and designations for various telecommunication facilities, South Island for Telecom New Zealand Ltd and Telecom Mobile Ltd.
- Preparation of DOC concession variation application for Telecom New Zealand Limited.

Overseas Experience – February 2000 – February 2003

Commonwealth Bank of Australia - London October 2000 – June 2002 – whilst travelling

People Now Recruitment Consultants - London Feb 2000 – Mar 2000- whilst travelling

Resource Management Service - Christchurch Community Law Centre Jan 1999 – June 1999

A voluntary adviser to clients regarding environmental resource management issues. This involved liaising with resource management consultants, city council staff and clients, and utilising Regional and District plans and environmental policy in order to advise clients

Ministry for the Environment - Christchurch October 1999

A two week voluntary work placement while at University that involved analysing Regional and District plans and Regional and National environmental policy. This analysis was then written into reports and presented.
